TRANSACTION SUMMARY

Non-displacement <u>and</u> No Net Loss: To the extent feasible, it is the Agency's priority to mitigate multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The
Project is a new construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development.
Commercial Space: The Project does not include commercial space.

TRANSACTION OVERVIEW 6. **Proposal and Project Strengths** The developer/sponsor have extensive experience in developing similar affordable housing projects and have two • existing projects in the CalHFA portfolio, which are operating as agreed. The Project has been awarded 4% and CA tax credits which are projected to generate equity representing 51% of total financing sources. The property management company, ConAm Management have extensive experience in developing similar affordable housing projects and is currently managing 17 projects in the CalHFA portfolio. The Project will serve low-income families ranging between 50% to 70% of AMI. The Loan-to-Value will be 82%, which meets the Agency's minimum requirements, providing less risk to the Agency. The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$2,484,051 which could be available to cover cost overruns and/or unforeseen issues during construction. The developer is contributing an amount of \$1,025,337 via GP contribution to the Project. • • The exit analysis assumes 7.25% (2% above current cap rate per appraisal report) cap rate and 3% increase of the underwriting interest rate at loan maturity. Based on these assumptions, the Project will have the ability to fully repay the balance of Agency's permanent loan and a substantial amount of the remaining balance of the subsidy loan with an anticipated outstanding amount of \$320,070. 7. **Project Weaknesses with Mitigants:** The Project is in a slightly higher crime area; therefore, the Project has budgeted \$21,444 annually for security patrol each night from 7:30pm-5:30am and a monthly repair cost. The security company will be uniformed and registered/licensed with BSIS. In addition, the building design includes intrusion detection elements (security camera plan, no-climb fencing/wall, gated entry/exit, controlled access to an electronic FOB system, balconies, and exterior lighting) and the project is in a business improvement district (BID) that provides daily security patrols, graffiti removal, and litter removal along Arden Way. 8. Underwriting Standards or Term Sheet Variations • The MIP term sheet requires repayment of the MIP loan to be a pro rata share of 50% of residual receipts between the MIP and other subordinate residual receipts lenders. The investor requires that the deferred developer fee be fully paid within 13 years after the property is 100% completed. The Developer has requested, and the Multifamily Lending Division recommends a repayment restructure as follows: 75% of net cash flow paid towards deferred developer fee until it is paid in full, which is anticipated to occur in year 13, and 25% of net cash flow is paid towards the MIP loan. After the deferred developer fee is paid in full, 50% of net cash flow is paid to the developer and 50% is paid to the MIP loan. • The MIP loan amount is more than 50% of the permanent loan amount which is a deviation from the MIP Term Sheet and an exception to policy. Approval of this exception is recommended by Multi-Family Underwriting and Credit Staff subject to CalHFA being the permanent lender and based on the following: approval facilitates the progression of a shovel ready project without delay; the project received a CDLAC Bond Allocation in April; the higher amount of MIP/unit allows the Developer to reduce their state tax credit request from \$9,598,833 (\$79,990 /unit) to \$8,399,942 (\$70,000 per

- The MIP loan per unit is \$63,950 which exceeds the term sheet maximum of \$50,000 for a project with affordability levels between 60% and 80% AMI. Approval of this exception is recommended by Multi-Family Underwriting and Credit Staff subject to CalHFA being the permanent lender and based on the following: approval facilitates the progression of a shovel ready project without delay; the project is ready to submit for a CDLAC Bond Allocation in January; the higher amount of MIP/unit allows the Developer to reduce their state tax credit request from \$9,598,833 (\$79,990 /unit) to \$8,399,942 (\$70,000 per unit) resulting in a much more efficient use of the limited resources of State Tax Credits.
- The project meets the requirement to average 70% AMI by restricting 3-bedroom units only rather than a pro-rata share of each unit type as required by the USRM. This rent structure maximizes rents, the permanent loan amount, and lowers the subsidy request. Therefore, approval of this exception is recommended by Multi-Family staff underwriting and credit staff.

9. Project Specific Conditions of Approval

Approval is conditioned upon:

- Evidence of all environmental remediation prior to Perm Loan conversion.
- CalHFA may require a copy of the construction and/or permanent lenders proforma evidencing consistent underwriting assumptions.
- Lender(s), equity investor, and borrower shall permit CalHFA to recycle all or a portion of Project's tax-exempt bonds, as applicable.
- The Project must meet the readiness requirements within 180 days from TCAC/CDLAC allocation.
- CalHFA will require the developer to provide a cost containment certification that is acceptable to the Agency.
- Subject to receipt of a certification acceptable to CalHFA from the engineer on record that project was built to current seismic code prior to permanent loan closing.
- CalHFA requires that MIP affordability covenants be recorded in a senior lien position ahead of any foreclosable debt and any existing debt.
- The CalHFA subsidy will be, in the Agency's sole discretion, the lesser of 1) the principal amount as state on hereto or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing. For instance, if the permanent loan interest rate decreased, then the subsidy may be reduced due to additional debt generated by the lower interest rate. The debt service coverage ratio ("DSCR") shall be a maximum of 1.20. An increase of the subsidy loan will not be allowed and will be subject to Agency's approval.
- Closing on construction financing will be subject to final LPA being substantially consistent to the assumptions made at time of final commitment and that it is acceptable to CalHFA.
- Independent review of the costs by a 3rd Party consultant prior to construction loan closing

10. Staff Conclusion/Recommendation:

The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions.

MISSION & AFFORDABILITY

11. CalHFA Mission/Goals

This Project and financing proposal provide 119 units of affordable housing with a range of restricted rents between 50% AMI and 70% of AMI which will support much needed rental housing that will remain affordable for 55 years.

12. CalHFA Affordability & Occupancy Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum 40% of the total units at or below 60% AMI with 10% of these units at 50% of AMI for 55 year(s).

The CalHFA MIP Subsidy Regulatory Agreement will restrict 10% of total units (12 units) at or below 50% of AMI and 10% of total units (12 units) between 60% and 80% of AMI with a minimum average of 70% AMI. The remaining 95 units will

be restricted at or below 120% of AMI. The affordability restrictions for the Mixed Income Program require at least 10% of the units be restricted to 81% to 120% of AMI, with an average of 100% of AMI, if supported by a market study. However, per an appraisal completed by Cushman and Wakefield and dated 7/14/2020, the Project can only support rents at a maximum of 70% AMI and still comply with the requirement that rents be 10% below market. Therefore, this project will comply with affordability requirement of 60% to 80% of AMI with an average of 70% of AMI.

TAX-EXEMPT PERMANENT LOAN PROGRAM

CalHFA's Tax-Exempt Permanent Loan Program ("Perm Loan") provides competitive tax-exempt long-term financing for affordable multifamily rental housing Projects. Eligible projects include newly constructed or acquisition/rehabilitation developments that provide affordable housing opportunities for individuals, families, seniors, veterans, and special needs tenants ("Project").

Qualifications	 Available to for-profit, non-profit, and public agency sponsors. Tax-exempt bond authority must be obtained from the California Debt Limit Allocation Committee (CDLAC) or through a 501(c)(3) exemption. The Tax-Exempt Permanent Loan may be used with or without 4% low income housing tax credits. If a lender other than CalHFA is providing short-term, first-lien debt, CalHFA shall be used as the bond issuer (for more information, review the Conduit Issuer Program Term Sheet). For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract. The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program. For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit www.calhfa.ca.gov for the CalHFA Portfolio Loan Prepayment Policy.
Loan Amount	 Minimum Perm Loan amount of \$5,000,000. Minimum 1.15x for debt service coverage ratio (include any financing with amortizing debt). Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.

This program description is subject to change from time to time without prior notice. The CalHFA Mixed-Income Program ("MIP") provides competitive long-term subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product or a sponsor must work with a CalHFA Mixed-Income Qualified Permanent Lender (defined below). The Mixed-Income resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of very low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

Qualifications

APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at www.calhfa.ca.gov/multifamily/mixedincome/forms/index.htm.
