	Brief Project Description	Kelsey Ayer Station (the "Project") is a 115 unit, family and special needs new construction Project. It consists of one six-story, two-elevator-serviced building. There will be 113 affordable units restricted between 20% and 80% of AMI for the City of San Jose, including 89 studio units (444 sq. ft) and 24 two-bedroom units (816 sq. ft). 1 studio unit and 1 two- bedroom unit (total of 2 units) will be reserved as unrestricted manager's units. There will be 22 furnished HUD Section 811 units, including rental subsidy administered by CalHFA, that will be set aside for eligible tenants. The developer has elected to reserve 6 additiona units for tenants with intellectual/developmental disabilities (IDD). IDD tenants will be referred to the project by San Andreas Regional Center who will also be paying for the tenants' supportive services. The project is Transit Oriented Development (TOD) and only includes 10 parking spaces reserved specifically for tenants for either Ride-Share or disability accommodations (when requested and if available) as a condition of their HCD- TOD award. The project is within walking distance to transit and services. The site consists of an existing two-story commercial structure that is currently vacant and will be demolished prior to construction. The Project is located within a governor declared					ew construction will be 113 Jose, including unit and 1 two- nits. select units, and kitchen appliances including refrigerators, stove/ovens, dishwashers, and garbage disposals.
 Local Resources and Services: For TCAC/CDLAC purposes, the Project is located within a Moderate Resource area per TCAC's Opportunity Area Map. The Project is in close proximity to the following local amenities and services: Grocery stores – within 0.5 miles Schools – within 1 mile (elementary and middle) Public Library – within 1 of mile Public transit – within 0.5 miles Retail – within 1 mile Park and recreation – within 0.5 miles Hospitals – within 2.5 miles
Non-displacement and No Net Loss: To the extent feasible, it is the Agency's priority to mitigate the overall effects upon affordable housing availability that may arise from multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development. The site consists of an existing two-story non-residential commercial structure that is currently vacant and will be demolished prior to construction.
Commercial and/or Other (i.e. Parking) Space: The Project does not include commercial space.

MISSION

Subsidy Efficiency: \$4,600,000 (\$40,708 per MIP restricted units).

Tax Credit Type(s), Amount(s), Pricing(s), and per total units:

• 4% Federal Tax Credits: \$26,804,357 (\$233,081 per total units).

Rental Subsidies: The Project will be subsidized by HUD Section 811 for 22 units for an initial term of 20 years. Prior to expiration of the 811 contract, the borrower can apply for a renewal for an additional 10 to 20 years. CalHFA will be the contract administrator. A HUD 811 Award Announcement letter has been provided, dated May 7, 2021.

Other State Subsidies: The Project will be funded by HCD TOD Funding in the amount of \$10,000,000 (\$86,957 per total units).

Other Locality Subsidies: The Project will be funded by locality funds; from the City of San Jose, a subordinate loan of \$12,825,000 (\$111,522 per total units) and a discounted 99-year ground lease payable at construction loan closing in the capitalized amount of \$100,000 and ongoing payments from approximately 11% of City's portion of residual receipts payment.

Cost Containment Strategy: Several cost containment strategies are being employed on this project.

- First, all major design disciplines were engaged early during the schematic phase to inform design assumptions.
- Second, the general contractor was engaged early during design development to provide preconstruction services such as providing cost estimates with pricing input from all major trades at each major design

1	
•	milestone, providing recommendations and guidance on value engineering throughout design to achieve a targeted hard cost number, reviewing plans for constructability and completeness, and informing assumptions on construction logistics and duration. This process includes identifying clarifications and exclusions applicable during each stage of pricing. Third, the project invested in early physical site investigation to confirm soil conditions, environmental conditions, and existing underground conditions. Design and cost assumptions were informed through these early investigations. Fourth, the project converted to a design-build arrangement with the general contractor, Devcon Construction, a major builder of affordable housing communities in the Bay Area. Devcon, as general contractor, engaged their extensive in-house architectural team for preparation of the Construction Documents, coordinating most design disciplines in working towards a targeted hard cost number established by the owner. The mechanical, electrical, plumbing and fire sprinkler systems are also design-build by trades who will install the work. These trades had been competitively bid before awarding the design work. Collectively, these groups are using 3D BIM software and elaborate clash detection methods avoid costly delays and rework in the field. Lastly, the balance of the trades will be competitively bided out. The Guaranteed Maximum Price (GMP) contract will contain all industry standard cost containment strategies, such as a robust Division 01 specification outlining the Request for Information process, requirements for a detailed critical path schedule, closely reviewed, negotiated exclusion and qualification sections, and a performance bond.
	on, owner will include a robust insurance program, including an Owner Controlled Insurance Program (OCIF r general liability, a negotiated builder's risk policy, and Contractor Pollution Liability coverage.
High-Co	st Explanation: The Project's high per-unit cost of \$622,435/unit is attributed to:
•	Estimated budget of \$8,081,018 in premium associated with prevailing wage requirement
•	Estimated budget of \$2,800,000 in permits and impact fees
•	Estimated budget of \$2,000,000 in increased costs associated with the building height, number of units, urban site, denser construction, additional fire life safety, more offsite and offsite utility scope, elevator costs, exterior building maintenance, and construction complexity.
	mated adjusted total development cost, minus the contributing factors above, is approximately \$58,829,63 62 per unit).

6. Equity – Cash Out (estimate): Not Applicable

TRANSACTION OVERVIEW

Proposal and Project Strengths
• The Project anticipates has received 4% federal tax credits which is projected to generate equity representing 35% of total financing sources.
 The Project will serve low-income families ranging between 20% to 80% of AMI. On average, the rents are between 10% to 80% below market rents.
• 22 units will be supplemented by HUD's Project-Based vouchers under Section 811 administered by CalHFA for a term of 20 years. Prior to expiration of the 811 contract, the borrower can apply for a renewal for an additional 10 to 20 years.

- The Loan-to-Value will be 54%, which meets the Agency's minimum requirements of 90%, providing less risk to the Agency.
- The locality has invested in the success of the Project as demonstrated by financial contributions from the City and a discounted ground lease from the City, which will be repay via a one-time capitalized amount of \$100,000 at construction loan closing and ongoing payments via approximately 11% of the City's share of the City's loan.
- The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is

\$1,186,002, which could be available to cover cost overruns and/or unforeseen issues during construction.

- The developer is contributing an amount of \$1,013,998 via GP contribution to the Project.
- The exit analysis assumes 6.5% cap rate and 3% increase of the underwriting interest rate at loan maturity. Based on these assumptions, the Project will have the ability to fully repay the balance of Agency's subsidy loans.

8. Project Weaknesses with Mitigants:

- The developer/sponsor does not have experience with CalHFA, however, they have experience in developing similar affordable projects in this region. Refer to section 31 for more information.
- A Site Management Plan dated December 1, 2020 identified soil contaminated with heavy metals, arsenic, and lead. Remediation costs are included in the development budget. Remediation of all environmental findings is a part of the construction plan and budget in the amount of \$125,000. Evidence of environmental clearance will be required as a prerequisite to closing of the CalHFA permanent and MIP loans.

9.	Underwriting Standards or Term Sheet Variations
None.	

10. Project Specific Conditions of Approval

Approval is conditioned upon:

- The City's ground lease will require all loans to be recorded against leasehold interest in the land and fee interest in the improvements. City must provide approval of CalHFA ground lease rider. If any lender encumbers both fee and leasehold interest in the land, CalHFA loan documents will also secure in the fee and leasehold interest of the land. The final ground lease document is subject to CalHFA approval. No site work or construction commenced prior to the issuance of a HUD Risk Share Firm Approval Letter.
- The CalHFA subsidy will be, in the Agency's sole discretion, the lesser of 1) the principal amount as state on hereto or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing. For instance, if the permanent loan interest rate decreased and/or rental revenue assumptions increase, then the subsidy may be reduced due to additional debt generated by the lower interest rate. The debt service coverage ratio ("DSCR") shall be a maximum of 1.20. An increase of the subsidy loan will not be allowed and will be subject to Agency's approval.
- CalHFA requires that MIP affordability covenants be recorded in senior position to all foreclosable debt.
- Subject to receipt of supplemental bond allocation from CDLAC in an estimated amount of \$2M by CDLAC or evidence that the project meets the 50% test pursuant to bond and 4% tax credit requirements prior to permanent loan closing.
- Receipt of a Lien Priority/Position Estoppel in form and substance acceptable by CalHFA from all local (city and county) lenders.
- The HUD Use Agreement will be ahead of CalHFA in a first lien position recorded on leasehold on title. This is required and therefore allowable under our underwriting guidelines for HUD subsidized properties. The final HUD Use Agreement will be subject to Agency's review and approval prior to construction loan closing.
- CalHFA will require that the local funding regulatory agreements to contain provisions allowing rent increases to the maximum TCAC rents in an event of default.
- Subject to a seismic evaluation and approval by CalHFA. CalHFA may require earthquake insurance in its sole discretion. See Section 23 for more detail.
- Receipt of a certification by the engineer on record that Project has been built to current seismic code acceptable to the Agency prior to permanent closing.
- The final appraisal will be subject to Agency's review and approval.
- The owner must provide evidence of investor, HCD, and City approval of the total deferred developer's fee and residual receipt payment structure.
- Final Soils Management Plan must be provided and approved by CalHFA prior to construction loan closing. In addition, evidence of environmental clearance must be provided and approved by CalHFA prior to permanent loan closing.

- Defaults under any loans used to capitalize payments or ongoing residual receipt payments required by the ground lease must not constitute a default under the ground lease.
 Funds from the CalHFA permanent loan and/or the subsidy loan shall not be used to fund or offset any portion of the offsite improvement costs.
- As a condition of approval CalHFA will require a flood certification determining the flood zone and any flood insurance requirements prior to permanent loan closing.

11. Staff Conclusion/Recommendation:

The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions.

AFFORDABILITY

12. CalHFA Affordability & Occupancy Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 30% of the total units (35 units) at or below 60% AMI and 10% of the total units (12 units) at or below 50% of AMI for 55 years.

*The CalHFA MIP Subsidy Regulatory Agreement requires 10% of total units (12 units) be restricted at or below 50% of AMI, 10% of total units (12 units) between 60% and 80% of AMI be restricted with a minimum average of 70% of AMI for a term of 55 years. The rents for the 60% to 80% tranche will be determined by the minimum income limit of 70% of AMI, not to exceed 80% of AMI. The remaining 89 restricted units will be restricted at or below 120% of AMI. The City requires that its income and rent limits are used to determine maximum rents for each target occupancy levels (instead of TCAC maximum rents), which is allowable pursuant to MIP term sheet. For underwriting purposes, the initial rents at permanent loan closing must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed. These rent levels will be covenanted in the CalHFA Regulatory Agreements.

In addition, the Project will be restricted by the following jurisdictions as described below:

- The City of San Jose funding will restrict 113 units at or below 80% of AMI for a term of 55 years.
- HCD TOD funding will restrict 113 units at or below 80% of AMI for a term of 55 years.
- HUD 811 will restrict 22 units at or below 50% of AMI for an initial term of 20 years.
- Developer has elected to restrict 6 additional units at or below 20% of AMI for IDD eligible tenants for a term of 55 years.

	DEVELOPMENT SUMMARY
19.	Site Description Requires Flood Insurance: 🗌 Yes 🔀 No
•	The property is located on the northwest corner of the intersection of North 1 st Street and Fox Avenue in the City of San Jose, Santa Clara County.
•	The site is currently vacant, with level topography at street grade, measuring approximately 0.47 acres and is generally rectangular in shape.
٠	The site is zoned RM – Multiple Residences which allows for multifamily housing development.
•	The subject site is located in Flood Zone D, which means an area of "undetermined flood hazard." The Civil Engineering consultant affirms the site is not located in a 100-year or 500-year floodplain. CalHFA staff has also researched and agrees with the Civil Engineers assessment. As a condition of approval CalHFA will require a flood certification determining the flood zone and any flood insurance requirements prior to permanent loan closing. The site consists of an existing two-story commercial structure that is currently vacant and will be demolished prior to construction.
20.	Form of Site Control & Expiration Date
purch cost o of 99 y	rrent owner, The Kelsey Ayer Station LLC, is the managing general partner of the borrower. However, the report ommended implementing a Site Management Plan (SMP) for the soil contaminated with heavy metals, arsenic, and d during and after construction. The GC's hard cost budget includes \$125,000 for the additional work for soil vement and allowance for contaminated soil disposal. EPA review has been initiated and is still in process. NEPA clearance is required as part of the standard construction n closing requirements.
23.	Seismic Requires Earthquake Insurance: 🗌 Yes 🔀 No

The California Housing Finance Agency ("CalHFA" or "Agency") Mixed-Income Program ("MIP") provides competitive, long-term, subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product. The MIP resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of extremely low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

Qualifications

APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at www.calhfa.ca.gov/multifamily/mixedincome/. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated.

AVAILABILITY:

Available to for-profit, nonprofit, and public agency sponsors. Development teams must meet CalHFA experience requirements, as defined in the CalHFA Development Team Qualifications section below.

USES:

MIP Subsidy loans must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender. MIP Subsidy loans must also be used in conjunction with CalHFA's permanent first-lien mortgage financing. CalHFA Mixed-Income Qualified Construction Lender is defined in the CalHFA Lender Qualifications section below.

FINANCING STRUCTURE:

Projects accessing the MIP Subsidy loan funds must be structured as one of the following:

- 1. Tax-exempt Bond and 4% tax credit project where at least 51% of the units in the project must be tax credit financed, OR
- Qualified mixed-income project through income averaging pursuant to Internal Revenue Code Section 42 (g)(1)(C).

	c. Remaining 80% of total units at or below 120% of AMI with the exception of the non-restricted manager's unit(s) OR at the affordability restrictions consistent with CTCAC requirements.
	(Deviations from the average unit affordability levels of 70% AMI will only be considered if Market Study supports such deviations.)
	2. Projects must be tax credit transactions that are income-averaged and must not exceed an average affordability of 60% of AMI across all restricted units.
Mixed-Income Project Occupancy Requirements (Continued)	MAXIMUM ALLOWABLE RENTS: Rents for all restricted units must be at least 10% below market rents as evidenced by a current Market Study or an Appraisal. This threshold will be analyzed at time of application and again at CalHFA's final commitment approval. The report shall be current within 180 days of Agency's final commitment and may be subject to required updating if the report expires prior to construction loan closing. Any proposed rent adjustments above 5% of the approved rents subsequent to construction loan closing may be considered if supported by a recent or updated Market Study or Appraisal that is dated within 180 days from MIP loan closing, at CalHFA's sole discretion.

Loan Term: The MIP loan term shall be coterminous with the CalHFA permanent first lien loan. Loan Payment: Residual receipt repayment based on cash flow analysis and split 50% to Owner and 50% to CalHFA and other residual receipt lenders. Residual receipt is defined as 50% of surplus cash which is determined as net operating income minus total debt service and other Agency approved payments. Payments shall be applied to the current and/or accrued interest and then principal of the MIP loan. Deviation from the net cash flow split may be granted 1) to meet equity investor's deferred developer's fee requirement as evidence by the limited partnership agreement, and 2) is subject to approval(s) by other residual receipt lender(s), as applicable. Affordability Term: 55 years. Prepayment: May be prepaid at any time without penalty. Subordination: A subordination and/or extension of MIP maturity request in conjunction with a resyndication, refinance, or ownership transfer ("capitalization event(s)") will be considered. If MIP loan is outstanding at time of the capitalization event(s) and requires subordination at the time of such event, the surplus cash split between borrower and CalHFA and other residual receipt lenders may be altered to
	 reflect an increased percentage of residual receipts to CalHFA out of Borrower's share until such time as the MIP loan is paid in full. The remaining residual receipts may be split between other residual receipt lenders. 7. Funded: Only at permanent loan conversion.
